Pumping unit technical data

		HP1608EC	HP1808ECX
Max. theorical output	m³/h	160	180
Max. pressure on concrete	bar	80	83
Concrete cylinders (diam. x stroke)	mm	230 X 2100	260 x 2100
Concrete hopper capacity	I	550	600
Hydraulic circuit		closed	closed

Control System

Smartronic Gold	
ASC Advanced stability control	
MBE Maximum boom extension control	
Auto RPM engine speed adjustment	
Working ramps kit for the pumping unit	
LCD monitor	
Counters	
Pumping unit management	
Diagnostics	
Rear capsense control panel	

ASC is standard equipment

The automatic continuous verification of the centre of gravity of the machine guarantees the maximum safety of boom movement and the maximum possible coverage of the job area, even with partial opening of the stabilisation.

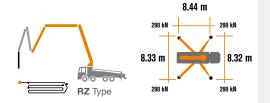

MBE Maximum boom extension control

Automatic RPM Management Total weight less than 32 tons, payload to the user always available.

Super compact machine mounted on 8x4 5450* wheelbase trucks for excellent maneuverability.

Contained stabilization dimensions for easy placement in all types of job sites.

Placing boom technical data

		B5HRZ 47/43
Pipeline diameter	mm	125
Max. vertical reach	m	46.1
Max. horizontal distance (from center of slewing axis)	m	41.4
Net horizontal reach	m	38.6
Min. unfolding height	m	8.9
Sections number		5
1st section opening angle		90°
2nd section opening angle		180°
3rd section opening angle		180°
4th section opening angle		237°
5th section opening angle		230°
Rotating angle		+/-270°
End hose	m	3

Standard Equipment

Section I, II and III made of high strength steel Section IV, V made of light in carbon fiber
Front "X" style diagonal outriggers with double telescopic opening and swing-out rear outriggers for a quick and easy set-up also in narrow area
Driven by PTO or gear box
Boom control by means of "Load Sensing" proportional distributor
Safety device upon opening of concrete discharge door and hopper grille
Emergency device for pumping group
2 Hetronic proportional radio controls with 3 manipulators
Emergency radio control cable 20 m
Plastic water tank with 600-litre capacity
Medium pressure water pump (50 l/min - 50 bar)
LED lights for stabilisation and hopper lighting
Double layer piping with chromium carbide inserts on the entire piping line
Washing accessories
High resistance of the components most subject to wear ("S" valve, wear plate, compensating ring)
Declaration of conformity supplied with the user and maintenance manual

Main Options

provides ASC2 (Antibouncing	dvanced: In addition to the Smartronic Gold functions, o stability control, ABC boom oscillation control g), automatic boom opening and closing. Includes control Hetronic or HBC with display
Automatic boo	om opening and closing
Centralized bo	om lubrication system
Concrete shut-	-off valve
High pressure	water pump 28l / 120 bar
Radio remote o	control: Hetronic or HBC equipped with display
5	ete piping on double layer boom with high wear-resistance bide inserts CIFA LLT Long Life Top
Wide choice of	customer personalization colours
*Over 100 opt	ions available: details available on truck pumps

Over 100 options available; details available on truck pumps optional booklet
